Pavement Preservation Products

When it comes to durable repairs, Deery is the answer

The DEERY product line of Pavement Preservation includes a broad range of superior quality ASTM, AASHTO, FAA, Federal and Specialty products for new construction and preventative maintenance of asphalt and concrete applications around the world.

The DEERY line of proprietary formulations include a full range of Crack Sealants and Fillers. This product line includes Super Stretch® and Level & Go Repair Mastic®. The FBJ-6297 Bridge Joint System® is suitable for joint replacement and new installation of expansion bridge joints, and has been noted for its ease, efficiency and outstanding results.

When the damage has progressed beyond the limits of sealing or filling you need DEERY Repair Mastic®. Mastics go down easy, wear long, and are smooth riding. Formulated to deliver a durable, waterproof, load bearing patch, they've become a FAA top choice for jet aircraft runways. DEERY Repair Mastic®...your best bet for a long wearing patch that outperforms traditional concrete or asphalt patching materials.

DEERY Bridge Joint System® is a better system for the new construction or repair of expansion bridge joints. Its exclusive material formulation and application procedure virtually eliminates rutting and migration, and products a smooth riding, long-lasting joint that's ready for traffic as soon as the material cools.
